CITY PLANS TO BUY AND RUN LOS ANGELES RAILWAY SYSTEM

Negotiations Already Under Way for Purchase for \$40,000,000 of Yellow Street-Car Lines to Be Operated Under Municipal Ownership

The city of Los Angeles is and has been for some months negotiating for the purchase for approximately \$40,000,000 of the entire street railway system of the Los Angeles Railway Corporation, planning to operate the yellow street-car lines as a municipal enterprise.

The city was admitted in responsible quarters at the City Hall yesterday following the report of the joint board of engineers acting as a railway consolidation commission, which body recommends, among other things, that the city take over the yellow street-car lines under a unification scheme with the Pacific Electric.

The city, however, had not waited for this recommendation to open negotiations with the Los Angeles Railway Corporation, president and principal owner of the Los Angeles Railway Corporation. The transaction had progressed to a point, after several months of negotiating, where the city was expected to make a recommendation to the city board of directors, which would supply a favorable basis for a public announcement of the scheme.

The street railway men evinced reluctance to discuss the proposed purchase, the fact that the city is on was confirmed by others high in transportation circles. The plan of the municipal-ownership enthusiasts at the City Hall, it was somewhat understood, was to start from the consolidation commission's report to build up a community attitude, by propaganda and otherwise, toward the necessary huge bond issue.

The plan took into account the probability of extensive opposition to the scheme, both on the part of the Los Angeles Railway Corporation and because the city's revenue of \$42,668,000 would be almost wiped out by such a purchase. This is the largest bond issue in the New York that the bonds would have to be sold.

SHERMAN RUM GRAFT TO JURY

Quis Today Over Asserted Sale of Favors

Officers at Town Questioned by County Officials

Dry Chief Starts Inquiry on ex-Federal Agents

Reported favor to bootleggers and partial protection of the bootlegging business in and around Sherman, the subject of an investigation today by the grand jury in special session, Dist. Atty. Keyes announced last night. The announcement followed a lengthy questioning of Waldo Hanby, Constable, and D. J. Jones and J. H. Allen, deputy constables at Sherman, and orders to William Johnson, night watchman at Sherman, and Sgt. C. J. Gruy of the Hollywood police division, to hold themselves in readiness to face possible charges.

Hanby and Allen are declared to have admitted receiving money while they were in the employ of the sheriff's office, and to have been regarded as coming more or less legitimately. The Constable and his deputies, it was said, are being detained incommunicado.

TRAP DECLARED LAID

According to Dist. Atty. Keyes, affairs at Sherman are said to have been under quiet investigation and able to honor the prohibition squad, and to have revealed evidence that bootleggers were getting off easy through no fault of the justice of the peace before whom they were being arraigned. Bond, according to the District Attorney, had a trap for certain of the minor officials and got sufficient information to justify him in bringing in the Constable and deputies for investigation.

At the jail, Dist. Atty. Keyes, Dep. Dist. Atty. Fitts, Sheriff Traeger, Chief Criminal Deputy Sheriff Wright and Capt. Bond were present.

Sgt. Gruy, according to Capt. Bond, denies emphatically any connection with or knowledge of the affair. He was directed to be said to report to Chief Heath to make a similar denial was made.

BACK FROM HUNTERS' EDEN

Hollywood Quartet Find Game so Plentiful They Stalk Quarry With Camera

Incredible tales of wild game abundance told by Andy Gump's well-known friend "Old Timer" assume only casual proportions in comparison with actual conditions in the Caribou country of British Columbia, according to a bronzed and jubilant quartet of Hollywood residents who drove into the cinema capital yesterday after a month spent in the Canadian wilds, bearing with them loot of the wilds in the form of moose and caribou horns, grizzly bear hides and other trophies. They are Ted McClellan, Mrs. McClellan, Frank Mueller and Ivor McCray.

During their trip three moose, three caribou and three grizzlies were bagged, to say nothing of a black bear, innumerable grouse, pheasants and other game birds and trout galore.

"After the first few days in the Caribou country you go out hunting with a camera instead of a gun," says Mueller.

Among the game tales which would have aroused the admiration of none other than "Old Timer" himself, are the following: Grouse are so numerous they can be shot with an ordinary slingshot; a giant moose may be lured out of the wilderness by means of a moose call to pose for their pictures almost any hour of the day or night; every sort of game is so abundant that much of the sport is taken out of the chase and a camera becomes the sporting weapon.

The most thrilling experience of the trip fell to McClellan. A large grizzly, carrying one of McClellan's bullets and a typical grizzly peeve, turned on a dog which immediately sought refuge between McClellan's legs. Just before the dog reached its prospective haven, the enraged grizzly wiped it out of existence with one sweep of his paw and turned on McClellan. At the time one of McClellan's feet was jammed in a windfall and only a lucky snap shot saved his life.

Throughout the trip Mrs. McClellan undertook a full share of "roughing it" and was well supplied with small game and trout, and even tried conclusions with bear, which after being wounded, succeeded in escaping.

One of the moose heads brought out by the party is said to be the largest ever taken in the Caribou country.

Henceforward, persons playing "bits" in Universal pictures will be selected from the list of those registered at the studio. All contacts with outside casting agencies will be eliminated. Instead of paying a percentage of their wages to the agencies, the players hereafter will leave the studio with a full pay check.

The new policy goes into effect immediately, according to Kohner. Registrations will be accepted from all who present themselves at the Universal casting office and the list so obtained will be the one from which all future extra talent will be drawn. People for large movie scenes, however, will still be selected from downtown employment agencies.

This is the first announcement of importance from the Universal studio since the departure of Carl Laemmle, president of the corporation. Kohner, who has been working on the new plan since his appointment to the position of casting chief, submitted it to Laemmle soon after his arrival.

While no definite word has yet been forthcoming, it was stated that Laemmle has ambitious plans for the development of Raymond Keane, who recently completed the juvenile lead in "The Midnight Kiss." Janet Gaynor, leading lady of western comedies; Fay Wray, playing the lead opposite Art Acord; George Lewis, who has been placed under contract following his work in "Two Blocks Away," and Charlie Puffy, round European comedian.

HELD TO ANSWER IN HONOLULU
James Adams was held to answer on \$5000 bond on a robbery charge by Justice Ambrose yesterday. He is charged with having held up E. Fritz, proprietor of a restaurant at 644 South Main street, October 22, last, obtaining \$22, using the neck of a bay-run bottle concealed in his coat pocket to simulate a revolver.

The Santa Fe has now pending a petition to reach the outer harbor. The Harbor Commission and the State Railroad Commission as well as the Greater Harbor Committee of 260 have all gone on record as opposing the road's permanently crossing Anaheim Road at grade, but the commission was willing to grant a temporary permit at grade with the suggestion that the railroad agree to use the viaduct now being built at Dominguez Creek at a cost of \$500,000.

STEADY GROWTH OF HARBOR TRADE MAKES OUTLOOK FOR FUTURE BRIGHT, SAYS ALLEN

"With general business conditions good, a gradual increase of general cargo handled in Los Angeles Harbor appears and apparently will continue growing," Walter B. Allen, president of the Los Angeles Harbor Board of Commissioners, said yesterday.

Plans are being formulated whereby a considerable private water frontage will be provided. We need a public

cold storage plant to handle our fruit shipments and are working to that end. Our harbor now is generally on a more progressive and stable basis than two years ago.

General cargo has shown a splendid increase over municipal wharves. We are completing our belt railway system and the outlook for an increased volume of business in and out of our port is splendid.

FALIS NEAR CITY
Near Los Angeles a trace of rain and more fell many points. Monrovia reported a trace with total for the season to date of .92 of an inch. Last year the total was .79 inches.

RAIN FALLS IN SOUTHLAND
Showers Reported Near Los Angeles, Downpour Near Escondido and Sprinkles Elsewhere

Los Angeles received only spotty showers of no measurable quantity yesterday while the weather man bestowed his favor upon localities in all directions from the city. While storms reported from various sources were comparatively small, a downpour resembling a cloudburst was reported from Vista in San Diego county. Vista is fourteen miles northwest of Escondido on the inland highway to Los Angeles and the heavy fall of water caused a near panic among more than fifty motorists who were held up by the storm.

At Escondido the rain began falling at 5 o'clock last night and after apparently stopping was followed by two hard showers. Total rainfall for the day was .34 of an inch, making the season total 5.34 as compared to .67 of an inch at this time last year.

Light rain was general throughout the San Joaquin Valley. Fresno reported .02 for the last twenty-four hours which makes the total for the season 1.59. Last year at this time .64 of an inch had fallen. Yesterday's total makes .06 of an inch which has fallen in Fresno since Monday afternoon at which time a blanket of snow was spread in both the high and low Sierras. Six inches of snow fell at Kaiser Ridge and five inches at Huntington Lake late Monday afternoon and night.

Showers started in Porterville yesterday afternoon, but were not measured by the official observer. The total for the season thus far reported is .66 of an inch compared with .43 at this time last year. The season total for the season was 12 inches during the 1924-25 season.

Bakersfield was included in the storm area and light showers drifted in from the mountains, but not enough rain fell to be noted in the gauges. Reports from the El Tejon region said that the rain had been reported from the El Tejon region since Monday evening at which time a blanket of snow was spread in both the high and low Sierras. Six inches of snow fell at Kaiser Ridge and five inches at Huntington Lake late Monday afternoon and night.

UNION MEN FACE FIGHT TO FINISH

Three-fourths of Industry for American Plan

Declare Against Dictation by Organized Labor

Declaring that they are being forced to their action by obstinate and unreasonable conduct on the part of the labor unions involved in the Los Angeles tile contracting associations, comprising approximately seventy-five of the larger tile dealers of the city, announced yesterday that if union tile setters, on strike for three weeks, refuse to go to work by tomorrow morning, the association members will conduct their labor organization in the future under the American plan, which embodies the open-shop features.

This ultimatum has been sent the local union leaders by a committee representing the tile contractors' Credit Association of Southern California and the Southwest Tile Contractors Association. A showdown on the question, the tile contractors say, will have an important effect on labor conditions in the city.

AGREEMENT MADE

The local tile setters' union and the tile setters' employers, two different labor organizations, went on strike last week because of wage differences and the tile setters because they insisted on having union helpers. An agreement was reached last Thursday between a committee representing the employers and the tile setters by which the tile setters were to go back to work at an increased wage of 50 cents a day until January 1, 1926, when they will receive another increase of 50 cents a day for the rest of that year, making their daily wage 1.12 for the year of 1926.

In making their agreement with the tile setters, the employers agreed to pay the tile setters a daily wage of 1.12 for the year of 1926.

The local tile setters' union and the tile setters' employers, two different labor organizations, went on strike last week because of wage differences and the tile setters because they insisted on having union helpers. An agreement was reached last Thursday between a committee representing the employers and the tile setters by which the tile setters were to go back to work at an increased wage of 50 cents a day until January 1, 1926, when they will receive another increase of 50 cents a day for the rest of that year, making their daily wage 1.12 for the year of 1926.

In making their agreement with the tile setters, the employers agreed to pay the tile setters a daily wage of 1.12 for the year of 1926.

CHOCOLATE FRUIT BREAD

A "quick bread" that's new!

There may be nothing new about "quick breads"—or even nut and fruit breads—but there's a whole story of delicious newness about Chocolate Fruit Bread.

Richer than ordinary bread, of course; but not quite so rich as cake. Butter-spread sandwiches made with this new Ghirardelli treat "fit in" wonderfully at tea, at supper, for the children's lunch, for the picnic hamper.

The fact that Ghirardelli's Chocolate Fruit Bread is altogether different from any "quick bread" you have ever tried doesn't mean it takes longer to make. Not at all! You simply sift the ground chocolate with the flour, baking powder and salt, and the quick-trick is done. Try this "quick bread" and see!

Because it takes the place of cocoa, unsweetened and sweetened cake chocolate, Ghirardelli's is all-in-one!

Not too rich—just right!

1 egg
1/2 cup brown sugar
2 tablespoons melted shortening
1 cup graham flour
1 cup white flour
1/2 cup Ghirardelli's Ground Chocolate
3/4 teaspoon salt
3/4 teaspoon baking powder
1 cup milk
1/2 cup seedless raisins
1/2 cup chopped nuts

Beat egg until light, add sugar and shortening. Stir dry ingredients twice (retaining bran from graham flour). Add these alternately with milk. Stir in raisins and nuts, and turn into well greased bread pan. Let stand 15 minutes and bake in moderate oven (350° F) about 40 minutes.

SOCIETY

BY JUANA NEAL LEVY

Mrs. and Mr. Arthur Alexander were the charming hosts Wednesday evening at an elaborately appointed buffet supper, the occasion celebrating the fiftieth wedding anniversary of Mr. Alexander's parents, Mr. and Mrs. John Alexander.

After the guests were seated, the golden "bride and bridegroom" made their entrance to the strains of the Mendelssohn Wedding March, played by courtesy over the radio by Loren Powell's orchestra. Later on in the evening the same orchestra came to the home and gave a delightful program.

Fifty guests were bidden, including another son, Alexander, Mrs. Alexander and Mrs. Jack Alexander, who came from San Francisco and Sacramento to help celebrate the event. An interesting feature of the evening was the reading of a clipping taken from the San Francisco City Courier fifty years ago, fully describing in detail the wedding, the reception, and gifts received by them, and many other features of the ceremony.

Buffer Supper

Mrs. and Mrs. Sylvain Noack were hosts Sunday evening of a buffet supper given in honor of William Andrews Clark, Jr., Walter Henry Rothwell and a group of members of the Philharmonic Symphony Orchestra. The affair took place at the Noack home in South Oxford avenue.

Schutte-Kirby

One of the prettiest, appointed weddings of the last week was that of Miss Helen Schutte, attractive daughter of Hendrik L. Schutte, and Frederick Edward Kirby, the ceremony taking place at the home of Mr. and Mrs. Johann O. Schutte, 631 South Norton avenue, with Rev. W. R. Dwyer officiating. In the presence of the family and a few intimate friends.

The house was a bower of roses and dahlias, the bride wearing a becoming frock of French blue georgette, and carrying a shower of bride's roses. Following the ceremony there was a reception and wedding breakfast was served, after which Mr. and Mrs. Kirby left for a honeymoon trip. After their return they will be at home with the bride's father, Hendrik Schutte, 1414 Arapahoe street.

WET SIDE OF PROHIBITION PRESENTED

Maryland Representative States Turning Point in Liquor Question at Hand

Presenting the side of the opponents of prohibition, Col. John P. Hill of Baltimore, member of Congress from the Third District of Maryland, declared the liquor issue in this country today is not what the citizen shall or shall not drink but whether American liberty is to be maintained in harmony with the Constitution and the Declaration of Independence.

Col. Hill outlined the views of the wet in an address at a luncheon at the Biltmore given in his honor by the Southern California division of the Association Against the Prohibition Amendment. The speaker was introduced by Attorney Joseph Scott.

Much of Col. Hill's address was devoted to a diverting account of his experiences some time ago when he made older and wine on his "farm" near Baltimore in order to obtain a clear definition of some of the terms of the Volstead Act.

The colonel was finally indicted and tried for violation of the Volstead Act, but the United States Circuit Court found him guiltyless at hand to prove that the liquor he had concocted were in fact intoxicating.

Col. Hill asserted that the turn in point on the liquor question is now at hand. He declared that a split on the issue exists even among church organizations.

The speaker stressed particularly the point that the prohibition amendment has placed in the hands of the Federal government powers which properly belong to the States. "In my opinion, if the States should have the right to regulate the liquor traffic within their own boundaries," he said, "the States have the right to pass their own penal codes and any regulatory measures they deem necessary. Why should they be barred from deciding on what their citizens may drink?"

In conclusion, Col. Hill urged his audience to encourage all persons who believed as the Association Against the Prohibition Amendment believes to come out in the open and express their convictions. "If sufficient sentiment of this nature can be developed, it is probable that Congress can be influenced to modify the existing law during its coming session," he said. "The issue is one involving the preservation of American liberty under the Constitution."

CHARGE DISMISSED

A statutory charge against Daniel McCollum was dismissed by Justice Ambrose yesterday after several members of a church congregation at Pomona and testified in his behalf. The complaint had been made by Tessie Durant, colored, of 334 East Eighth street.

Diet and Health

ANSWERS TO CORRESPONDENTS

CONSTIPATION AND PHYSICS

Mrs. M.: You never will be able to overcome constipation so long as you continue to take physics regularly. It is only occasionally that physics are necessary, when there is need for a very quick evacuation of the intestinal tract. (They should never be taken for acute pain in the abdomen for it is dangerous.) In chronic constipation they simply help to keep up the condition.

I imagine from your letter that you are under weight. You probably are not getting enough food in general, and especially not bulk. You must have a regular time for your personal hygiene habits and you must stop worrying about it, for worry undoubtedly causes a reflex contraction of the intestinal tract. You must have exercise of the trunk wall. Brisk walking with a long stride is good.

The intestinal tract should have something to push on, and you may have to include extra bulk in your diet by adding agar or bran to it. (You can get agar at the drug-store; get the granular non-medicated type.) You may take it at a regular time daily. You may have to wait two or three days, especially if you are in the habit of taking physics, before evacuation, but taking a physio will spoil the effect. You should also take a tablespoonful or so of mineral oil. You can make it up into a mayonnaise or French dressing. It is the only oil that is taken with the meals. This oil you can get under various trade names at the drug store.

There is a little seed known as the psyllium seed which has a mucilaginous quality, which is very helpful. You might take some of these also.

I'll give you the names of manufacturers of the psyllium seeds, if you will send me a stamped envelope with your request.

(Tomorrow's Answer)

My dear Peterson: I am glad to hear that you are well and one of your children is in the hospital. I am sure you will be able to get her home soon.

PLUNDER STORE IN BOLD HOLD-UP

Young Gunmen Figure in
Daylight Robbery

Clerk Subdued by Threats of
Armed Desperado

Pair Successfully Escape in
Pedestrian Throng

Two nattily clad young bandits
raided the Benson Men's Shop at
328 West Fifth street, in a daring
daylight hold-up shortly before 8
p.m., yesterday and made their get-
away in the pedestrian-choked
street with \$80 which they ob-
tained from the cash register.

Both bandits gripped automatics.
One remained at the door on guard
and the other snatched the cash
register from the clerk's hands.
"I have a silence on this gun,"
the young desperado informed the
clerk. "If you make a false move
I'll kill you."

With his gun trained on Levine,
the bandit walked to the cash reg-
ister, extracted the \$80 which it
contained and strode out to join
his companion at the door. They
had lost themselves in the home-
going throng on Fifth street when
Levine sprang out after them.

Police were notified at once and
Detective Lieutenants Kirk and
Spiller responded. They obtained
a detailed description of the two
gunmen and began an extended
search through the downtown dis-
trict in the hope of overtaking
them before they sought another
quarter of the city.

Police declared the crime, de-
spite the small amount obtained
by the gunmen, to be one of the
boldest in recent months. Hun-
dreds of persons passed the shop
while one of the bandits was go-
ing through the cash register.
None of them, it appeared, how-
ever, was aware as to what was in
progress because of the quiet man-
ner in which the hold-up was con-
ducted.

Both bandits were quietly and
neatly dressed. One was about 25
years of age and other about 18.

NEW RUMOR OF HARBOR FORD PLANT

Report Says Millions to
be Spent on Branch to
Employ 2500

Rumors that the Ford Motor
Company is about to build a harbor
plant site have bobbed up again
in the Harbor District. One such
story heard yesterday was to the
effect that the company has ac-
quired twenty acres on the East
Bassin, Wilmington, on which to es-
tablish an assembling plant at a
cost of several million dollars and
to employ 2500 men, replacing the
established assembling plant at
Seventh and Santa Fe streets.

B. L. Graves, manager here for
the company, has gone to Detroit
but Assistant Manager Capex said
the plant is running twenty-four
hours a day, employing 1500 to
1600 men and, so far as he knows,
is not to be moved. If the com-
pany has acquired any land at the
harbor no one at the local office
knows of the deal, Capex said.

The Union Pacific Railroad owns
some land in the neighborhood
and once negotiated with the com-
pany for sale of some of the prop-
erty but it was asserted in the rail-
road company's offices yesterday
that it has not and any land to the
motor company and is not negoti-
ating such a deal.

President Allen of the Board of
Harbor Commissioners said the
city owns about all the available
waterfront land in the neighbor-
hood except that owned by the
Union Pacific and that the city has
made no deal with Ford interests.

So, beginning today, Judge
Keeler has planned to transact the
business of the Long Beach court
during the morning sessions and
take care of the work of Judge

afternoon.

Judge Crawford, who is expected
to return to the bench about the
first of next month, has been taken to his

cording to J. Roy McClay, clerk of
his department.

Division's Barbecue

Capt. James P. Lyons and the
San Pedro police division were the
hosts yesterday to the safety offi-

The new range, said to be the

on the north slope of the canyon,
thus throwing direct sunlight from
the butt and affording complete
protection from wind deflection.

The target end of the range is dug
out of the side of the hill.
Sheriff Treasurer, Chief of Police
Heath and Maj. Lincoln B. Cham-
